Sir:

We, Bayram Arman, Engineer and Citizen of the United States of America, residing at 16 The Commons, Grand Island, New York 14072; James J. Volk, Engineer and Citizen of the United States of America, residing at 4384 Homestead Lane, Clarence, New York 14031; Steve A. Richards, Engineer and citizen of the United States of America, residing at 5 Bartle Road, Somerset, New Jersey 08873; Mushtaq M. Ahmed, Engineer and Citizen of the United States of America, residing at 22 Widewaters Lane, Pittsford, New York 14534 and Arun Acharya, Engineer and Citizen of the Untied States of America, residing at 85 Twilight Lane, East Amherst, New York 14051 declare:

1. That we made and conceived the invention described and claimed in patent application Serial No. 10/810,803 filed in the United States of America on March 29, 2004 titled Method For Operating A Cryocooler Using Temperature Trending Monitoring.

2. That we made and conceived this invention while employed by Praxair, Inc. That the invention is related to the work we are employed to perform and was made within the scope of our employment duties. That the invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of Praxair, Inc.

Okay

3. That the invention was not made (conceived or first actually reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

4. The undersigned inventors declare further that all statements made herein of their own belief are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
